

The original specification at page 69, line 26 to page 70, line 11 (aka [0172]) is amended by replacing the self-evident error "AgSbF" with --AgSbF₆--. Support for this correction is found in the anion "SbF₆⁻" of the chemical formula following [0172].

The other amendments are to draw attention to and correct typographical errors by the Patent Office appearing in U.S. Patent Publ. No. 2002/0120160, which published from the above-identified application.

Support for the amendments is found in the specification and claims as originally filed. It is believed that no new matter would be introduced by entry of these amendments.

Claims 1-12 are pending in this application. Claims 1, 2, 3, 4 and 7 are independent.

REMARKS

Applicants respectfully request entry of the foregoing and issue of the application.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,
MAIER & NEUSTADT, P.C.
